# OUR EXPERTISE

Glacier Energy's specialist welding services can prolong the life of critical surface and subsea components to enable their use in harsh offshore environments.

As well as the provision of weld overlay solutions, Glacier Energy can provide turnkey project management services comprising welding provision, planning and scheduling, management reporting, and technical expertise incorporating weld engineering and metallurgy, as required.

We offer:

- ✓ Conventional CRA Cladding Systems (horizontal & vertical)
- ✓ Weld Prep Buttering & Butt-Welding
- ✓ Orbital Joint Welding
- ✓ Manual Welding & Fabrication
- ✓ Offshore Welding with MIST & BOISET certified Welders
- ✓ Welding Inspection & Certification to CSWIP 3.2
- ✓ Speed Cladding Systems (2 off Fronius Systems): 30% cost savings compared to traditional methods
- ✓ NDT: DPI, MPI, UT, X-Ray, PMI & Clad Thickness
- ✓ Aftermarket: Assembly & Component strip down, Inspection & Full Repair & Reclamation Services
- ✓ Turnkey Project Management: including Pre-Weld Machining, Weld Overlay, Heat Treatment, Finish Machining, Inspection, NDT & Coatings

With our state-of-the-art technology, Glacier Energy is the only dedicated weld overlay solutions provider in the UK.

## CUTTING-EDGE TECHNOLOGY & CAPACITY

Glacier Energy offers annualised welding capacity in excess of 95,000hrs, working on a 24x7 basis. We also have the capacity to handle components up to 30 tonnes in weight with a working envelope of 4m x 4m x 5m.

Our state-of-the-art welding equipment over twin-turntables and manipulators supports our vast technical knowledge of more than 650 client and industry-approved Welding Procedures (WPS).

## CONTACT US

Get in touch with one of our experts to find out how we can improve the efficiency, performance and productivity of your operations today.
